

Apple Valley Animal Hospital

540-678-0202

Surgical Instructions for owners:

Be sure your pet has no food eight hours before surgery.
A small amount of water is permitted.

Drop him or her off the morning of surgery between 8-8:30am

Feel free to call and check on your pet at any time.

Patients usually go home the same evening of surgery.

Declawed cats must stay at least two nights.

If the doctor recommends your pet stays the night, hospitalization is included in the surgery price you were given.

He or she can be picked up after 10am the morning of discharge.

Any further questions – please do not hesitate to call.
